WATERPROOF CHECKWEIGHING SCALES

The FS-KL Series checkweighing scale combines accurate high capacity weighing with the easy cleaning of stainless steel wash down surfaces. This scale is particularly suited to areas where contact with food, water or chemicals is likely.

- Sealed enclosure and load cell for wet areas.
- Exclusive analogue sweep LCD display graphically shows weight while filling. Large digital display precisely shows the result.
- Display head tilts for ease of reading.
- Battery or mains power. Battery lasts up to 400 hours, with alkaline batteries.
- Auto battery power down is user selectable.
- Full digital calibration.
- Eight preset memories for target weight and high/low set point values.
- Numeric keypad allows quick entry of Target Weight and High/Low set point values.
- Approved by the National Standard Commission for trade use and manufactured to Australian standards. ASO9001 requirements.

CHECKWEIGHING DISPLAY

Simply key in target weight, high and low set point values or recall them from up to 8 pre-settings.

TARGET WEIGHING

Analogue Sweep display allows you to quickly judge when you are approaching target weight. During checkweighing the display instantly shows the packages relationship to the target weight.

SPECIFICATIONS			
	FS-150KAL	FS60KAL	FS-30KAL
Capacity & Resolution	150kgx50g	60kgx20g	30kgx10g
Sensitivity Drift	20ppm/°C		
Pan Size (mm)	390x530mm	390x530mm	326x420mm
Weight	12kg		
Power	6 x UM2/C size batteries or AC adaptor		
Battery Life	400 hrs with Alkaline cells at 20°C		
Operating Temp	-10 to 40°C		

Specifications subject to change for improvement without notice

OPTIONS

- OP 03 - Serial Interface (RS232C) Comparator output.
- AC Adaptors - AC adaptors are optional for the FS-KL
